andropogon

## Andropogon Associates – Employment Opportunity

Position: Landscape Architect / Project Manager

Years of Experience: 5-7 years

Location: Philadelphia, PA or Raleigh, NC

Work Environment: Hybrid (Office-Based + Occasional Work-from-Home)

Travel Required: Yes (Project-Based + Occasional Inter-Office Travel)

Compensation: Salaried Position, Commensurate with skill level

### POSITION DESCRIPTION:

Founded over forty years ago, Andropogon is a landscape architecture and ecological design firm committed to the principle of "designing with nature," creating beautiful and evocative landscapes inspired by the careful observation of natural processes and informed by the most recent environmental science. Please visit our website for additional firm information.

Our offices in Philadelphia, PA and Raleigh, NC are expanding and seeking a talented landscape architect to help with a variety of high-profile projects. This position will work on multiple projects with a wide range of scale and character. The successful candidate will work directly with Associates and Principals in the firm. The successful candidate will be energetic, self-directed, and have a professional demeanor with a constructive and positive attitude. This candidate must have the ability to thrive in fast-paced and fluid environments. They will also enjoy problem solving and must be able to effectively communicate design and production tasks to junior staff when required.

Due to the ongoing COVID 19 pandemic, the tasks associated with this position will be accomplished remotely (work-from-home) and gradually transition to hybrid (office-based + occasional work-from-home), followed by in office. The timing of this transition will depend on the recommendations established by local public health agency guidelines. Company-wide office protocols and protection measures have also been implemented to ensure the health and safety of all staff that are required to intermittently enter the office to complete tasks (printing, scanning, etc.) that cannot be done from their home office.

Please provide a portfolio of work, including examples of digital and hand graphics, construction documents, and any built work along with a resume and professional references. Applicants who do not meet the minimum professional experience level or technical skills will not be considered.

### CANDIDATE QUALIFICATIONS:

- Minimum 5 years professional experience
- Experience in a management role is desired
- Licensed Landscape Architect, or the ability to obtain license within one year. Out of state licensure is acceptable
- Demonstrate strong interpersonal skills including the ability to interact with peers, professionals in other disciplines, and clients in a friendly, responsive, and professional manner
- Experienced and proficient designer with experience in master planning, urban design, municipal permitting processes, and construction documentation including grading, planting design, and detailing
- A focus or extensive knowledge of native plant material and planting design

- A passion for sustainability and environmentally sensitive design
- Demonstrate curiosity and development of skill in the design and construction of landscapes and land planning
- Can communicate design thought and process through the creation and arrangement of presentation graphics
- Must be fluent with AutoCAD, Rhino, and the Adobe suite
- Parametric modeling, REVIT, and/or GIS skills are a plus
- Knowledge of Living Building Challenge, LEED, and Sustainable Sites Initiative are a plus
- Knowledge of Newforma, ProCore, e-Builder, and/or Prolog also a plus

## CANDIDATE RESPONSIBILITIES:

- Work directly with Associates and Principals to facilitate the design direction and advancement of projects through construction
- Perform technical and administration duties associated with project management
- Immediately contribute in the preparation of construction drawings as well as schematic design and master planning packages
- Work on multiple unique assignments simultaneously, utilizing organizational, analytical, and problem solving skills

**Education Requirements:** BLA or MLA from an accredited institution
